## Work Experience

---

### **Data Science Intern**

Netparam Technology Pvt. Ltd. - Jaipur, Rajasthan

February 2021 to August 2021

- Worked on data pre-processing and many Machine Learning Algorithms for making good working model in python
- Worked on NDVI (Normalized Difference Vegetation Index) to analyze greenness over the time period. For analysis using Time series analysis and perform multiple visualizations using data visualization tools such as Matplotlib, Seaborn, Plotly, and data manipulation tools such as Numpy, Pandas.
- Collaborated with the team to develop a model for efficient Time Series Analysis of the event-based dataset.

## Education

---

### **Master's degree in Data Science**

University of Maryland-Baltimore County - Baltimore County, MD

August 2021 to Present

### **Bachelor's degree in Computer Science and Engineering**

Vivekananda Global University - Jaipur, Rajasthan

July 2016 to May 2020

## Skills

---

- Machine Learning
- Data Science
- Regression Analysis
- C/C++
- Java
- Data Visualization
- NumPy
- Pandas
- SQL
- TensorFlow
- Python
- Spark

## Languages

---

- English - Expert
- Hin - Expert
