June 2021

### **Additional Information**

---

I was Joint Event Manager in an organization called Indian Society for Technical Education, Student Chapter, MMCOE. I have worked in this organization for past 2 years, and we have successfully organized and conducted events on local as well as national level. I was also a member of college's Association of Computer Engineering Student committee where we organized events, which included both technical and non-technical events on college level. These both organizations provided be with the experience of crowd handling, management, people interaction, marketing as well as various other soft skills. I have also done social service during my school years by raising funds under Global Cancer Concern organization to fund cancer patients for 2 consecutive years as well as done tree plantation and cleaning as social worker during my Undergraduate years.
