Solution-focused Application Developer with experience in web-based applications and interest in machine learning. Looking forward to working as a professional developer to support the company's business objectives and strategies while gaining real-world experience. Worked to support the startup's objective, mentored Web Developers alongside learning multiple systems and efficient development techniques.

Willing to relocate: Anywhere

Work Experience

Web Developer Intern

Punar Rehab Solutions - Bengaluru, Karnataka

April 2020 to July 2020

Developed user interfaces with modern JavaScript frameworks (ReactJS and Next.js), HTML5 and CSS3. Studied basic project requirements with assigned technical lead and planned development strategies.

Designed and implemented reusable web components across new and existing designs.

Developed android application using React Native for testing their device.

Designed and integrated the blog page using Sanity.io CMS

Hosted at <https://www.punar.in>

Projects Lead & Core Member

Apple Developers Group (ADG VIT) - Vellore, Tamil Nadu

November 2017 to April 2020

Maintained detailed reports on updates to project specifications, progress, and team activities.

Trained new members of the organization in the various domains of web and app development.

Developed registration page for several hackathons organized by the organization.

Developed online test portal for organization's recruitment.
