Loyola University of Congo, Congo 2011-2014

EUROPEAN MASTER OF COMPUTER SCIENCE
The Limoges school of Computer Science, Cameroun/France 2006-2009

UNIVERSITY DEGREE OF TECHNOLOGY
The University Institute of Technology, Cameroun 2004-2006

RESUME OBJECTIVE

Passionate about Cybersecurity, threat hunting, business intelligence, I am interested in software development, data processing, and machine learning to predict terrorist and cyber-attacks. Good knowledge of statistics and mathematics. I want to use data through business operations and analytics tools to analyze data and decision-making effectively

SKILLS

-Network security and administration (Windows and Linux)

-Security Information and Event Management (SIEM), Splunk; Vulnerability assessment; log analysis; threat hunting, triage.

-Digital Forensics

-Ethical hacking

-Web Application Penetration Testing (OWASP); Incident Response; Risk assessment

-DevOps culture; MERN architecture

-Node.js; Python; C++; JavaScript

-Frameworks: NIST CSF; MITRE ATT&CK, SOC II

-Docker; Kubernetes, Amazon web service

EXPERIENCE

IT ADMINISTRATOR

SOCIETY OF JESUS, WEST AFRICA PROVINCE / September 2011 - Present

- Website development and maintenance
- Software development
- Teaching in various context

CREC, Benin / August 2015 - Present

- Website development and maintenance

LECTURER INFORMATION TECHNOLOGY & SYSTEM ADMINISTRATOR

CERAP-JESUIT UNIVERSITY, Cote d'Ivoire / August 2014 – June 2016

- Teaching Information Technology, Graduate & Undergraduate
- System administration (Windows server 2012, Zen server, Zimbra, Linux)
- Software and website development
- Network administration and security

LOYOLA UNIVERSITY, Congo DR / September 2011 – July 2014

- Teaching Information Technology, Undergraduate
- System administration & network administration

SOFTWARE ENGINEER / BACK-END DEVELOPER

KOSSERY TECHNOLOGY, Cameroun-France / June 2006 - August 2009

- Agile developer; Java EE developer; Database designer
- C# /.Net
